To Whom It May Concern:

The purpose of this letter is to provide a reference to Mr. Han Tang, a student on the Masters in Computer Science course in the School of Computer Science, TU Dublin, Kevin Street campus.

I've known Mr. Tang since September 2017 as a student taking two modules I was delivering – Object Oriented Software Development and Artificial Intelligence. I have also supervised his MSc project during the last academic semester.

During the course of his studies he has demonstrated a commitment to his work, excellent attendance and has shown a very good understanding of the subject area. He is a hard working student, and was well able to define his own topic for the MSc project and competently drive the research to completion.

I'm happy to recommend him for the position he is applying for.

Please, should you have any further questions do not hesitate to contact me by email at svetlana.hensman@TUDublin.ie or by phone at 01 402 4701.

Sincerely,

Dr. Svetlana Hensman
Lecturer - TU Dublin, School of Computer Science
